LIST OF CONTENTS

NUMBER 1

Time-course analysis of stretch reflexes in hemiparetic subjects using an on-line spasticity measurement system
M.-S. Ju, J.-J. J. Chen, H.-M. Lee, T.-S. Lin, C.-c. Lin and Y.-Z. Huang 1

EMG responses resulting from transient and steady-state dynamic isometric loading of the human biceps can be distinguished
V.J. Spotts and M.C. Miller 15

Does using an ejector chair affect muscle activation patterns in rheumatoid arthritic patients? A preliminary investigation
B.J. Munro and J.R. Steele 25

Myoelectric signal measurement during prolonged computer terminal work
L. McLean, M. Tingley, R.N. Scott and J. Rickards 33

Transcutaneous FES of the paralyzed quadriceps: is knee torque affected by unintended activation of the hamstrings?
O. Levin, J. Mizrahi and E. Isakov 47

Relationship between EMG signals and force in human vastus lateralis muscle using multiple bipolar wire electrodes
H. Onishi, R. Yagi, K. Akasaka, K. Momose, K. Ihashi and Y. Handa 59

Standards for Reporting EMG Data I

NUMBER 2

Muscle activation in the contralateral passive shoulder during isometric shoulder abduction in patients with unilateral shoulder pain
C. Røe, J.I. Brox, E. Saugen, and N.K. Vøllestad 69

The comparison of trunk muscles EMG activation between subjects with and without chronic low back pain during flexion–extension and lateral bending tasks
C. Larivière, D. Gagnon and P. Loisel 79

Muscle activities used by young and old adults when stepping to regain balance during a forward fall
D.G. Thelen, M. Muriuki, J. James, A.B. Schultz, J.A. Ashton-Miller and N.B. Alexander 93

Sensitivity of trapezius electromyography to differences between work tasks — influence of gap definition and normalisation methods
G.-Å. Hansson, C. Nordander, P. Asterland, K. Ohlsson, U. Strömberg, S. Skerfving and D. Rempel 103

Muscle pre- and coactivity during downward stepping are associated with leg stiffness in aging
T. Hortobágyi and P. DeVita 117

Test of a new technique for the diagnosis of carpal tunnel syndrome
L.A.L. Resende, A.S.V. Adamo, A.P. Bononi, H.A.L. Castro, P.A.T. Kimaid, C.H. Fortinguerra and A.O. Schelp 127

Differential angle-dependent modulation of the long-latency stretch reflex responses in elbow flexion synergists
S. Yamamoto, K. Nakazawa, H. Yano and T. Ohtsuki 135

Standards for Reporting EMG Data I

NUMBER 3

Comparative study of Mm. Multifidi in lumbar and thoracic spine
T.W.A. Bojadsen, E.S. Silva, A.J. Rodrigues and A.C. Amadio 143

Between-days reliability of subjective and objective assessments of back extensor muscle fatigue in subjects without lower-back pain
Å. Dedering, M. Roos af Hjelmsäter, B. Elfving, K. Harms-Ringdahl and G. Németh 151

Assessment of neuromuscular response characteristics at the knee following a functional perturbation
S.J. Shultz, D.H. Perrin, J.M. Adams, B.L. Arnold, B.M. Gansneder and K.P. Granata 159

Anticipatory postural adjustments depend on final equilibrium and task complexity in vertical high jump movements
A. Le Pellec and B. Maton 171

Reflex facilitation during the stretch-shortening cycle
M.H. Trimble, C.G. Kukulka and R.S. Thomas 179

Gender and muscle differences in EMG amplitude and median frequency, and variability during maximal voluntary contractions of the quadriceps femoris
D.M. Pincivero, R.C. Green, J.D. Mark and R.M. Campy 189

EMG and kinematics of normal subjects performing trunk flexion/extensions freely in space
P.A. Mathieu and M. Fortin 197

Upper limb H reflexes and somatosensory evoked potentials modulated by movement
J.D. Brooke, G. Peritore, W.R. Staines, W.E. McIlroy and A. Nelson 211

Standards for Reporting EMG Data I

NUMBER 4

Motor unit recruitment and EMG power spectra during ramp contractions of a bifunctional muscle
L. Dupont, D. Gamet and C. Pérot 217

Criterion validation of surface EMG variables as fatigue indicators using peak torque: A study of repetitive maximum isokinetic knee extensions
B. Gerdle, B. Larsson and S. Karlsson 225

Reciprocal coactivation patterns of the medial and lateral quadriceps and hamstrings during slow, medium and high speed isokinetic movements
J.P. Miller, R.V. Croce and R. Hutchins 233

A test of a dual central pattern generator hypothesis for subcortical control of locomotion
M.A. Guadagnoli, B. Etnyre and M.L. Rodrigue 241

A new technique for the selective recording of extensor carpi radialis longus and brevis EMG
S. Riek, R.G. Carson and A. Wright 249

Comparison of across-subject EMG profiles using surface and multiple indwelling wire electrodes during gait
R.A. Bogey, J. Perry, E.L. Bontrager and J.K. Gronley 255

An application of pattern recognition for the comparison of trunk muscles EMG waveforms between subjects with and without chronic low back pain during flexion–extension and lateral bending tasks
C. Larivière, D. Gagnon and Patrick Loisel 261

Digital filter design for peak detection of surface EMG
Z. Xu and S. Xiao 275

Standards for Reporting EMG Data I

NUMBER 5

SPECIAL ISSUE

Proceedings of the European Commission on Surface EMG
for Non-invasive Assessment of Muscles (SENIAM)

Introduction to the special issue on the SENIAM European Concerted Action
R. Merletti 283

Recent progress in the diagnostic use of surface EMG for neurological diseases
M. J. Zwarts, G. Drost and D. F. Stegeman 287

Force and EMG power spectrum during and after eccentric and concentric fatigue
V. Linnamo, R. Bottas and P. V. Komi 293

Methodologies for evaluating electromyographic field data in ergonomics
G. M. Hägg, A. Luttmann and M. Jäger 301

Surface EMG models: properties and applications
D. F. Stegeman, J. H. Blok, H. J. Hermens and K. Roeleveld 313

Geometrical factors in surface EMG of the vastus medialis and lateralis muscles
A. Rainoldi, M. Nazzaro, R. Merletti, D. Farina, I. Caruso and S. Gaudenti 327

Comparison of algorithms for estimation of EMG variables during voluntary isometric contractions
D. Farina and R. Merletti 337

EMG signals detection and processing for on-line control of functional electrical stimulation
C. Frigo, M. Ferrarin, W. Frasson, E. Pavan and R. Thorsen 351

Development of recommendations for SEMG sensors and sensor placement procedures
H. J. Hermens, B. Freriks, C. Disselhorst-Klug and G. Rau 361

Standards for Reporting EMG Data I

NUMBER 6

Special Editor Introduction
D. Rempel 375

Use of surface electromyography to estimate neck muscle activity
C. M. Sommerich, S. M. B. Joines, V. Hermans and S. D. Moon 377

Differential control during maximal concentric and eccentric loading revealed by characteristics of the electromyogram
M. D. Bishop, M. H. Trimble, J. A. Bauer and T. W. Kaminski 399

Coactivation during gait as an adaptive behavior after stroke
A. Lamontagne, C. L. Richards and F. Malouin 407

Neuromuscular responses to explosive and heavy resistance loading
V. Linnamo, R. U. Nowton, K. Häkkinen, P. V. Komi, A. Davie, M. McGuigan and T. Triplett-McBride 417

Different neuromuscular recruitment patterns during eccentric, concentric and isometric contractions
D. Kay, A. St Clair Gibson, M. J. Mitchell, M. I. Lambert and T. D. Noakes 425

Intensity analysis in time-frequency space of surface myoelectric signals by wavelets of specified resolution
V. von Tscharner 433
